### **REGIONAL INFORMATION REPORT<sup>1</sup> NO. 5J89-04**

**Alaska Department of Fish and Game  
Division of Commercial Fisheries  
Juneau, Alaska**

**June 1989**

<sup>1</sup>The Regional Information Report Series was established in 1987 to provide an information access system for all unpublished divisional reports. These reports frequently serve diverse ad hoc informational purposes or archive basic uninterpreted data. To accommodate timely reporting of recently collected information, reports in this series undergo only limited internal review and may contain preliminary data; this information may be subsequently finalized and published in the formal literature. Consequently, these reports should not be cited without prior approval of the author or the Division of Commercial Fisheries.

## ALASKA COMMERCIAL SALMON CATCHES, 1878-1988

Division of Commercial Fisheries  
Alaska Department of Fish and Game  
P.O. Box 3-2000, Juneau, Alaska 99802

(907) 465-4210

June 1989

This collection of Alaska Commercial salmon catches, abstracted from sources believed to be the most reliable, is an interim working paper, not a formal publication. It is updated, revised, and reissued annually. The tables have not been exhaustively checked and may contain errors. Comments, suggestions for improvement, and corrections are solicited and will be appreciated.

Commercial catches of salmon, in thousands of fish, are tabulated by species and year for 18 fisheries and 9 fishery groups, including the 4 Management Regions (Southeastern, Central, Arctic-Yukon-Kuskowkim, and Westward), the 3 INPFC Statistical Regions (Southeastern, Central, and Western), and the entire State. Note that the Southeastern INPFC Statistical Region is the same as the Southeastern Management Region. The Statistical Regions are utilized in the Department's annual salmon forecast and catch and production publication series. Management Regions reflect the organizational structure of the Division of Commercial Fisheries.

1985	157	497	1179	21211	1866	24911
1986	196	386	1747	1142	1494	4967 Nov. 1, 1986 Prelim.
1987	7	565	121	5132	1440	7266
1988	4	404	152	1704	1366	3630 Jan. 13, 1989 Prelim.

1. Northern Southeastern Alaska includes Districts 9 through 16, from Sumner Strait northwest to and including the Fairweather Grounds, but excluding Yakutat fisheries, unless otherwise noted.

\* Individual species catches may not add to the all-species total because of rounding.

1. The Central Statistical Region (INPFC Areas) includes the Bering and Copper Rivers, Prince William Sound, Kodiak area, Chignik, and the south side of the Alasak Peninsula.

\* Individual species catches may not add to the all-species total because of rounding.

\*\* Sources: Edfelt, Larry, STATISTICAL HISTORY OF ALASKA SALMON CATCHES, 1973, ADF&G, Juneau (through 1971); ADF&G Statistical Leaflets 25 through 31 (1972 - 1973); ADF&G computer summaries (1979 - 1982); and ADF&G catch estimates (1983).
